BROWS™

AFTERCARE ADVICE

# ULTIMATE HENNA BROWS™

## AFTERCARE ADVICE

To ensure your brows are long-lasting and stay beautiful proper care and maintenance is required.

### **You should avoid the following for the next 24 hours:**

- Swimming pools and saunas
- Touching the area treated
- Perfumed products/ fragrances on area treated
- Sunbathing, sunbeds and heat treatments
- Applying make-up to the treated area or receiving any other eye treatments
- Getting brows wet, keep brows dry to help prolong Ultimate Henna Brows™ colour
- Avoid fake tan for 48 hours as it may discolour the tint and irritate the treated area
- Avoid exfoliation, skin thinning agents or any types of microdermabrasion for 72 hours either side of your Ultimate Henna Brows™ appointment

**DO NOT USE BROW TINT FOR A MINIMUM OF 3 WEEKS AFTER HENNA TREATMENT.  
(THIS COULD CAUSE A REACTION)**

### **Brow Maintenance**

- Oil base make up remover can cause the Henna to fade faster
- Try to tweeze any brow hair in-between your appointments with your Ultimate Henna Brows™ Artist
- To maintain your beautiful new Ultimate Henna Brows™, you should have regular brow appointments
